AxisSpace

ENTERPRISE SAAS PLATFORM

The operating system for member-based & appointment-driven businesses

Gyms, spas, salons, wellness studios, sports venues, gaming zones, and more—unified memberships, plans, packages, bookings, and payments on one platform.

◆ PLANS & SUBSCRIPTIONS ◆ BOOKINGS ◆ 12+ VERTICALS ◆ MULTI-TENANT

One platform. Every venue type.

AxisSpace replaces fragmented spreadsheets, legacy gym software, and disconnected payment tools with a single cloud-native system—for platform operators and the venues they serve.

Provision tenants, monitor revenue, and audit activity from a central command center. Each venue runs a portal tailored to its industry—members, catalog, courts, bookings, and resources—enabled by feature flags, not custom code.

Built on NestJS, PostgreSQL, and Redis with Stripe and Razorpay—engineered for isolation, observability, and regional payment flexibility.

PORTALS	VERTICALS	CATALOG TYPES	PAYMENT GATEWAYS

THE CHALLENGE

Venue operators deserve better than duct tape

Fragmented stack

Memberships, bookings, and payments in separate tools—reporting becomes impossible.

One-size-fits-none

Generic software forces every vertical into the same rigid workflow.

Weak multi-tenancy

Platform businesses need true tenant isolation—not hope as a strategy.

Booking conflicts

Double-booked courts and classes erode trust and revenue.

Unified member journey

Dual-portal architecture: operators govern the platform; venue owners run day-to-day operations—with catalog, scheduling, and billing in sync.

Platform Admin	Tenants · Plans · Metrics · Audit · Support · Super-admins
Tenant Portal	Members · Catalog · Bookings · Resources · Amenities · Settings
Core Services	Auth · Payments · Subscriptions · Invoices · Feature flags
Infrastructure	PostgreSQL (RLS-ready) · Redis · Stripe · Razorpay · Health & observability

PLATFORM CAPABILITIES

Everything operators need to scale

Member Management
Centralized records, roles, lifecycle—full tenant isolation.

Unified Catalog
Services, products, packages, and subscription plans.

Intelligent Booking
Availability, slot locks, pricing—no double-booking.

Subscriptions
Recurring plans and platform SaaS tiers for venues.

Global Payments
Stripe & Razorpay—charges, webhooks, regional flexibility.

Enterprise Security
JWT rotation, Argon2, rate limits, tenant guards, RLS.

Resources & Amenities
Rooms, equipment, lanes, and facility amenities.

Operator Analytics
Tenant health, booking trends, revenue, audit trails.

Built for every membership & booking business

One platform for gyms, spas, salons, wellness centers, gaming zones, and more. Industry templates pre-configure modules; **Plans**, **Packages**, **Services**, and **Products** adapt to how you sell—not the other way around.

One catalog model. Any industry.

Recurring revenue, prepaid bundles, bookable sessions, and retail—mixed and matched per venue via feature flags.

Plans	Packages	Services	Products
Monthly memberships, VIP tiers, class passes	Session bundles, credit packs, treatment series	Appointments, court hours, lanes, stations	Retail, add-ons, day passes, merchandise

Gyms & Fitness Clubs
Memberships, PT packages, class bookings
Plans · Packages · Services · Products

Spas
Treatments, room slots, wellness memberships
Services · Packages · Plans · Resources

Salons & Beauty
Stylist appointments, service menus, retail
Services · Products · Packages · Bookings

Wellness Centers
Spa, yoga, sauna, holistic programs
Full suite + Resources · Amenities

Yoga & Pilates Studios
Class schedules, intro packs, recurring subs
Plans · Packages · Services · Members

Gaming Zones & Arcades
Hourly stations, credit bundles, monthly passes
Bookings · Packages · Plans · Products

Sports Complexes
Court reservations, leagues, facility access
Courts · Bookings · Members

Swimming & Aquatics
Lane bookings, learn-to-swim packages
Services · Packages · Plans · Bookings

Dance & Martial Arts
Belt tiers, class plans, trial packages
Plans · Packages · Services · Members

Recreation & Clubs
Courts, amenities, member privileges
Courts · Resources · Plans · Amenities

Health & PT Studios
Session packs, rehab programs, subscriptions
Services · Packages · Plans · Bookings

Multi-location / Custom
Any mix of modules per site or brand
Generic template · All modules · Feature flags

Built-in presets for gym, sports complex, wellness, swimming, and generic—or tailor modules per tenant at provisioning. Same subscription & booking engine whether you run a salon chair or a gaming station.

AxisSpace

TRUST & COMPLIANCE

Security by architecture

✓ **Multi-layer tenancy**
App guards + middleware + database RLS strategy.

✓ **Modern authentication**
Argon2, JWT access/refresh with Redis rotation.

✓ **Operational rigor**
Request IDs, logging, rate limits, health checks.

✓ **Concurrency safety**
Redis locks prevent double-booking under load.

PLATFORM PLANS

Flexible tiers for growing operators

SaaS plans for venues on AxisSpace—scale staff, resources, and capabilities as you grow. Contact us for pricing aligned to your operation.

STARTER

Launch

- Up to 5 staff users
- Up to 10 resources
- Member management portal
- Core catalog management
- Booking & scheduling engine
- Standard platform support
- Industry template provisioning

PRO

Scale

- Up to 25 staff users
- Up to 50 resources
- Full catalog types (services, products, packages, plans)
- Advanced booking & availability
- Subscription & billing modules
- Platform analytics dashboard
- Priority support
- Payment gateway integration (Stripe / Razorpay)

ENTERPRISE

Custom agreements

Dedicated infrastructure · SSO · White-label · Custom modules · SLA support · Multi-location · Dedicated onboarding
